PROFESSIONAL SUMMARY

Information Science graduate with 6 months of Full Stack Development internship experience and currently working as a Full Stack Developer at Skill Check Hub. Skilled in React.js, Spring Boot, Java, REST APIs, and SQL databases. Passionate about building scalable web applications, solving complex problems, and continuously learning modern technologies.

TECHNICAL SKILLS

Programming Languages: C, Java, JavaScript (ES6+), TypeScript, SQL

Frontend Technologies: HTML5, CSS3, React.js, Redux Toolkit, React Router, Bootstrap, Material UI (MUI), Responsive Web Design

Backend Technologies: Node.js, Express.js, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, RESTful APIs, Microservices (Basic)

Databases: MySQL, PostgreSQL, MongoDB

Version Control: Git, GitHub, Bitbucket

API Development & Integration: RESTful API Development, API Design

Authentication & Security: JWT, OAuth 2.0, Spring Security, BCrypt Password Encryption

Build Tools: Maven, Gradle (Basic)

Operating System: Windows

CI/CD & Deployment: GitHub Actions, Vercel, Netlify (Frontend Deployment)

Development Tools: VS Code, IntelliJ IDEA, Eclipse, pgAdmin, MySQL Workbench, Postman, Swagger/OpenAPI

Design Tools: Figma, Canva

Concepts: OOP, MVC Architecture, REST Architecture, JSON, Axios, Fetch API, HTTP/HTTPS, Exception Handling, Dependency Injection

EDUCATION

Bachelor of Engineering – Cambridge Institute of Technology (VTU), 2021–2025

CGPA: 8.67

Pre-University College – Prarthana Science PU College, Bagalkot, 2019–2021

Percentage: 82.16%

SSLC – St Anne's Convent High School, Bagalkot, 2018–2019

Percentage: 77.28%

WORK EXPERIENCE

Java Full Stack Developer

Skill Check Hub IT Services Pvt. Ltd. | April 2026 – Present | Bangalore, India

Live Data Entry Dashboard

- Developed a real-time employee performance dashboard to monitor daily/monthly targets, completed tasks, pending work, and shift-wise productivity.
- Built scalable frontend and backend modules using React.js, Spring Boot, and PostgreSQL, integrating RESTful APIs for seamless data flow.
- Implemented OCR-based screenshot processing, automated scheduling, and performance analytics to improve operational efficiency.

Technologies Used: React.js, TypeScript, Java, Spring Boot, Spring Data JPA, PostgreSQL, REST APIs, Git, Postman, Maven

Full Stack Developer Intern

Tarento Technologies Pvt. Ltd. | Sep 2025 – Mar 2026 | Bangalore, India

JKC Dashboard

- Developed a Proof of Concept (POC) focusing on transforming complex design and functional requirements into a working web application interface.
- Improved dashboard load time by 20% by optimizing React component rendering and Spring Boot API endpoints.
- Integrated RESTful services to ensure seamless data communication between the user interface and the backend database.

eTravelMate

- Contributed to a management platform designed to help users plan, organize, and track complex travel workflows.
- Identified and fixed critical user interface issues to enhance platform usability and provide a more intuitive user experience.
- Partnered with team members to troubleshoot technical bottlenecks and ensure smooth feature implementation across the platform.

Gates

- Developed features for a course-based online learning system that allows users to register for courses and access educational content.
- Resolved 10+ high-priority UI issues and improved the responsiveness of the dashboard interface, directly enhancing system performance.
- Built dynamic dashboards and reporting modules to help users track their learning progress effectively.
- Collaborated with senior developers to maintain high code standards and troubleshoot production issues during the development lifecycle.

Technologies Used: HTML, CSS, JavaScript, React.js, Java, Spring Boot, MySQL

Computer Vision Intern

Seed Lab (Samsung) | May 2023 – Jun 2023 | Bangalore, India

Annotated and labeled 500+ images using the Computer Vision Annotation Tool (CVAT) to prepare datasets for computer vision and machine learning models, ensuring over 95% data accuracy.

PROJECTS

Secure User Verification System with Credential Tokenization

- Built a role-based web application supporting Admin, Student, and Teacher access control with secure authentication and database integration.
- Applied secure authentication using JWT and credential tokenization.
- Managed student data such as marks, attendance, and semester details using MongoDB.
- Enabled admin features for managing users, publishing notices, and generating mark sheets.

Technologies Used: HTML, CSS, JavaScript, React.js, Node.js, MongoDB, JWT

Adventure Travel Website

- Designed a responsive website showcasing 10+ adventure travel destinations and outdoor activities using HTML, CSS, and JavaScript.
- Provided information about destinations, activities, and safety guidelines for travelers.
- Created a responsive user interface using HTML, CSS, and JavaScript.

Technologies Used: HTML, CSS, JavaScript

CERTIFICATIONS

Sololearn – Java Introduction, Java Intermediate

Zetpeak – Java Workshop

Wadhvani – Life Skills (Jeevan Kaushal) 2.0

Udemy – Full Stack Web Development Bootcamp

DECLARATION

I hereby declare that the information provided in this resume is true and accurate to the best of my knowledge and belief.
